The Presence within all of the generations of our people is felt through the personality of each individual. Abraham and Sarah, Isaac and Rebecca, Jacob, Rachel and Leah each felt the Presence in a way unique to them. So, too, may it be for us and may our feeling of that Presence be filled with awe, and may it bring us strength, kindness and love.

May we know Life's potential for Help in our weaker moments, Rescue in our urgencies and Protection from the vicissitudes that challenge us. We are filled with awe when we feel that Protection, and we know that the first Jews, Abraham and Sarah, felt it as well.

Everything is given life from One Source.
Every breath is audacious
Every breath is adventure
Every breath is fragile
Every breath is a gift
Every breathing-in is filled with potential
Every breathing-out abounds with release.

May our gratitude become part of the many waves of thanks for life and its blessings that have been offered throughout time. Life holds us in loving hands, enfolds us in the Soul-of-Everything, and weaves moments that feel miraculous and wondrous. May we direct our living toward the Grand Goodness and the Womb-like Mercy each and every day.

For all that we experience we offer a continuing, reverberating expression of awe and wonder into the Oneness-that-is-Beyond-Being-Named.

All life gives thanks to the same Oneness, with many names that are true, with many names that are one.

We are awed before the Holy-Oneness-of-Everything. All its names are good names. We join all life in giving thanks.

Let an everlasting and abundant peace come to all who dwell on earth. All peace is one peace. May we see that peace as attainable and good for us and for all people at all times and in all places.
